RC: Pressed pace far side, headed 400m out, weakened. **Stewards Note:** On jumping shifted in and bumped another runner. When questioned regarding the performance of the filly, the rider advised that MOHEEBA (USA) had a tendency lay inwards throughout and failed to respond to his riding when placed under pressure in the straight. A post-race veterinary examination revealed the filly to be mildly lame in the right fore-leg however, an endoscopic examination revealed a degree of EIPH which may have affected its performance. Trainer Mr. M Costa was notified that prior to the filly being entered to race again he must provide a veterinary certificate of fitness for the horse.

When questioned regarding the disappointing performance of the gelding, the rider advised that BRANWELL (IRE) did not begin well and was one paced when placed under pressure. A post-race veterinary examination failed to reveal any abnormalities, however an endoscopic examination revealed a degree of mucus which may have affected its performance.
